

Direct Trade Specialty Coffee Two Bags Gift

Specialty coffee can consistently exist through the dedication of the people who have made it their life's work to continually make quality their highest priority. Great coffee starts with the producer whose family likely has spent generations perfecting their approach to farming the highest quality coffee possible. For the farmer, being able to connect with quality-minded buyers ensures a higher profit option which supports individuals, families and communities around the world. Green coffee is next transferred to the green coffee buyer who have a palate as distinguished as a sommelier and can keenly identify coffee quality via cupping, or systematic tasting of brewed coffees. High quality green coffees are next transferred to the coffee roaster. Coffee roasting is an art that requires a high degree of knowledge and experience to produce specialty level roast profiles.

Our coffee are direct import, small batch roasted in house at Bodhi Leaf Coffee Traders in beautiful Southern California.
